11:40-12:30	Discussion round with presenters, moderated by Isabel Ordóñez, Elisava.

During the first *Train the Trainer* session the operations of large-scale URCs were discussed. The second session is devoted to non-municipal URCs.

The presenters will be invited to present the business model of their centres: in what way they operate, how does it differ from the municipal URCs, how do they collaborate with the local authorities and what activities they do the most. Also, how they operate, how many people do paid work, how much is subsidised, etc.

The session will be made interactive so that presenters feel the audience and can provide immediate feedback to the questions.
